

2 Days 1 Night Durian Delight in Karimun, Indonesia (05-06 August 24)

Who isn't familiar with Kundur Island in Karimun Regency, Riau Islands, which is a paradise for producing durian famous for their delicacy?

Durians here are often the target of traders from as far as Batam and Bintan. And the two types of durian fruits that have always been targeted include the Musang King and Black Thorn, more famously known locally as Kundur durian. Our quest is to venture from Singapore to nearby Karimun and enjoy a laid back environment and the Kundur durian!
